- Multiple Answer Key support
- Ability to randomize tests
- Ability to assign point values ranging from 10000 to -10000
- Ability to change the order of question types
- Added Windows 64-bit support

Fixes:

- General fixes
- Corrected language support issues for French, German, Spanish, Dutch and Portuguese
- No longer able to send user data when participant list is set to "Anonymous"

1.0.0.8224**Enhancements:**

- Installs latest language files to the users machine
- Includes translated help files (.chm)
- Sets application language to the selected language

1.0.0.8106**Enhancements: TestingPoint 2008 for PC**

- The Test Administrator now includes a session backup feature, which can be manually extracted from C:\Documents and Settings\

Fixes:

- In previous versions, sending a blank test to the Test Administrator from the ResponseCard XR caused an error. The Test Administrator now ignores blank tests in version 1.0.0.8106
