

# ResponseWare for iOS App Release Notes

**Software Name:** ResponseWare iOS  
**Release Date:** 10/25/16  
**Version:** 2.6.2  
**Support:** [support@turningtechnologies.com](mailto:support@turningtechnologies.com)  
**Language:** English  
**Overview:**

## Minimum System Requirements:

- Apple device with iOS 9.0 or higher
- Wi-Fi connection (recommended for optimal performance) or data connection

### Warning

If you do not have an unlimited data plan, you may be charged for connectivity by your cell phone provider. Turning Technologies is not responsible for any cell phone usage.

## Bandwidth Usage (Average Estimates based on a Multiple Choice question with 5 answer choices)

Anywhere Polling (no images)	1.5 KB/participant
PowerPoint PC	104.09 KB – 210.02 KB/participant
PowerPoint Mac	58.57 KB – 118.16 KB/participant

### Important

Bandwidth usage above is only an AVERAGE ESTIMATE.

### Note

Presenters must have TurningPoint Cloud or TurningPoint 5 installed and ResponseWare enabled.

## 2.6.2

### Fixes:

- Fixed an issue with users being unable to join a session after reopening the app when signed in
