

TurningPoint
cloud

Make a Difference with TurningPoint Cloud

TurningPoint Cloud is an easy-to-use, interactive polling software designed to inspire lifelong learning and help prepare students for future careers. Gain real-time knowledge of comprehension to allow for deeper discussions and promote student collaboration. Leverage software through a direct PowerPoint integration for polling during presentations, polling over any application and to administer self-paced assessments.

Improve Learning

91% of learners experienced deeper learning from clicker discussions

Drive Engagement
